

Awards & Recognitions

Congratulations to **Dr. Bincy Abraham**, gastroenterology/hepatology, who has earned the inaugural Fondren Distinguished Professorship in Inflammatory Bowel Disease. This position was created to support a nationally renowned physician-scientist who will bring vision and drive to our inflammatory bowel disease program and develop bench-to-bedside research to enhance the program's clinical, educational and research goals.

Dr. Anthony Brissett has been elected to the Board of Directors for the American Academy of Facial Plastic and Reconstructive Surgery, his term will start in March. Part of his responsibilities include initiating educational opportunities for members and residents and increasing the involvement of the Baylor residents in the organization's activities.

Dr. Bin Teh was recently honored with the Phoenix Award from the Pink Door, an organization that supports women with cancer, at its annual Night of the Phoenix Gala. We cannot think of anyone more deserving.

Congratulations also to **Dr. Andrew Lee**, chair of the Department of Ophthalmology, who earned a spot on the list, ["50 Ophthalmologists To Know - 2016"](#) by Becker's Hospital Review. Great job!
